Gold-Colored  
Nitride-Coated Abutments

## BellaTek Gold-Colored Nitride-Coated Abutments

A customized solution for the highly aesthetic results your patients desire.

### Versatility

- The strength of titanium provides a solution for cases when angle corrections are needed in the anterior.

### Enhanced Aesthetics

- Gold-colored titanium nitride coating creates a warm hue through the gingiva.

### Customized Restorations

- BellaTek Custom Abutments are exclusively designed to match each patient's tooth anatomy, producing a natural emergence profile through the soft tissue.

## Clinical Case Presentation

Clinical treatment by Dr. Christopher Ramsey, Jupiter, FL, USA

**Fig. 1**  
A 35-year-old female patient presented with an unsatisfactory provisional restoration on teeth numbers 11-14.

**Fig. 2**  
Clinical situation post-orthodontics and removal of the provisional restoration.

**Fig. 3**  
A ZimVie Full Osseotite Tapered Implant and BellaTek Encode Healing Abutment were placed.

**Fig. 4**  
IPS e.max glass ceramic crowns and a BellaTek Gold-Colored Nitride-Coated Abutment were fabricated.

**Fig. 5**  
The crowns for the natural teeth and the implant on the master cast.

**Fig. 6**  
Final result showing the same aesthetic value on the natural tooth restorations and the implant supported restoration.

**Fig. 7**  
Periapical radiograph taken at three months, 30 days after cementation.
